Volume 55 1975

Table of Contents

1 On the Mechanism of Action of Alkylguanidines on Oxidative Phosphorylation in Mitochondria
S. Papa, M. Tuena de Gómez-Puyou, and A. Gómez-Puyou

9 Induction of Polyadenylate Polymerase and Differentiation in Neuroblastoma Cells
R. Simantov and L. Sachs

15 Thyroglobulin Messenger RNA: Translation of a 33-S mRNA into a Peptide Immunologically Related to Thyroglobulin
G. Vassart, H. Brocas, R. Lecocq, and J. E. Dumont

23 Rat-Liver Cholesterol 7α-Hydroxylase. 1. Development of a New Assay Based on the Enzymic Exchange of the Tritium Located on the 7α Position of the Substrate
J. van Cantfort, J. Renson, and J. Gielen

33 Cholesterol 7α-Hydroxylase. 2. Biochemical Properties and Participation of Endogenous Cholesterol in the Assay *in vitro*
J. van Cantfort and J. Gielen

41 Rat-Liver Cholesterol 7α-Hydroxylase. 3. New Results about Its Circadian Rhythm
J. Gielen, J. van Cantfort, B. Robaye, and J. Renson

49 Preparation and Properties of Vertebrate Smooth-Muscle Myofibrils and Actomyosin
A. Sobieszek and R. D. Bremel

61 RNA Metabolism in Nuclei Isolated from HeLa Cells
E. Busiello and M. di Girolamo

71 A Pathway of Chitosan Formation in *Mucor rouxii*. Enzymatic Deacetylation of Chitin
Y. Araki and E. Ito

79 Isolation and Partial Characterisation of the Relaxation Protein from Nuclei of Cultured Mouse and Human Cells
H.-P. Vosberg, L. I. Grossman, and J. Vinograd

95 Amino-Acid Sequence of the Peptide Segment Liberated during Activation of Prochymosin (Prorennin)
V. B. Pedersen and B. Foltmann

105 Regulation of Protein Secretion and Metabolism in Rat Salivary Glands. Effects of Norepinephrine and Carbachol on the Glycogenolysis in Submaxillary Glands
G. Herman and B. Rossignol

111 The Active Species of 'CO_2' Utilized by Reduced Ferredoxin : CO_2 Oxidoreductase from *Clostridium pasteurianum*
R. K. Thauer, B. Käufer, and G. Fuchs

119 Early Nucleolar Preribosomal RNA · Protein in Mammalian Cells
J.-P. Bachellerie, M. Nicoloso, and J.-P. Zalta

131 Morphogenesis of the Membrane-Bound Electron-Transport System in Sporulating *Bacillus megaterium* KM
B. J. Wilkinson and D. J. Ellar

141 The Structure of Dihydrofolate Reductase. Identification of Methionine Residues. Carboxymethylated by Iodoacetate with Loss of Catalytic Activity
J. M. Gleisner and R. L. Blakley

147 Initiation of Transcription within an RNA-Polymerase Binding Site
B. Heyden, C. Nüsslein, and H. Schaller

157 Specific Deuterium Labelling and Computerized Gas Chromatography—Mass Spectrometry in Studies on the Metabolism *in vivo* of a Steroid Sulphate in the Rat
T. A. Baillie, H. Eriksson, J. E. Herz, and J. Sjövall

167 Change of Cytochrome *c* Structure during Development of the Mouse
B. Hennig

185 Association of Glyceraldehyde-3-Phosphate Dehydrogenase with the Particulate Fraction of Chicken Skeletal Muscle
S. M. Dagher and H. O. Hultin

193 Nuclear Protein-Kinase Activity in Perfused Rat Liver Stimulated with Dibutyryl-adenosine Cyclic 3′:5′-Monophosphate
M. Castagna, W. K. Palmer, and D. A. Walsh

201 Affinity Chromatography on Immobilised Nucleotides. Some Applications to the Purification of Thermophilic Dehydrogenases and Kinases
M. J. Comer, D. B. Craven, M. J. Harvey, A. Atkinson, and P. D. G. Dean

211 Broad-Specificity Proteinase Inhibitors in *Scopolia japonica* (Solanaceae) Cultured Cells. Isolation, Physicochemical Properties, and Inhibition Kinetics
K. Sakato, H. Tanaka, and M. Misawa

221 Changes in the State of Actin during Superprecipitation of Actomyosin
H. Strzelecka-Gołaszewska, M. Jakubiak, and W. Drabikowski

231 Chicken Antichromatin Antibodies: Specificity to Different Chromatin Fractions
L. Zardi

239 Fingerprinting Studies of the Maturation of Ribosomal RNA in Mammalian Cells
F. Galibert, P. Tiollais, and M.-E. Eladari

247 Sequence Determination of 5′-Terminal and 3′-Terminal T_1 Oligonucleotides of 18-S Ribosomal RNA of a Mouse Cell Line (L 5178 Y)
M.-E. Eladari and F. Galibert

257 Interaction of Wheat-Germ Agglutinin with Bacterial Cells and Cell-Wall Polymers
R. Lotan, N. Sharon, and D. Mirelman

263 Crystalline L-Histidine Ammonia-Lyase of *Achromobacter liquidum*. Crystallization and Enzymic Properties
T. Shibatani, T. Kakimoto, and I. Chibata

271 tRNA Conformation and Magnesium Binding. A Study of Yeast Phenylalanine-Specific tRNA by a Fluorescent Indicator and Differential-Melting Curves
R. Römer and R. Hach

285 Selenium Binding to Beef-Kidney Rhodanese
C. Cannella, L. Pecci, A. Finazzi Agrò, G. Federici, B. Pensa, and D. Cavallini

291 D-Alanine Carboxypeptidase Activity of *Micrococcus lysodeikticus* Released into the Protoplasting Medium
R. Linder and M. R. J. Salton

299 Protein Kinase of Bacteriophage T7. 1. Purification
S.-H. Pai, H. Ponta, H.-J. Rahmsdorf, M. Hirsch-Kauffmann, P. Herrlich, and M. Schweiger

305 Protein Kinase of Bacteriophage T7. 2. Properties, Enzyme Synthesis *in vitro* and Regulation of Enzyme Synthesis and Activity *in vivo*
S.-H. Pai, H.-J. Rahmsdorf, H. Ponta, M. Hirsch-Kauffmann, P. Herrlich, and M. Schweiger

315 Stimulation of Tumor-Cell Respiration by Inhibitors of Pyruvate Kinase
M. Gosalvez, L. López-Alarcón, S. García-Suarez, A. Montalvo, and S. Weinhouse

323 Two Ribose-5-Phosphate Isomerases from *Escherichia coli* K 12: Partial Characterisation of the Enzymes and Consideration of Their Possible Physiological Roles
M. K. Essenberg and R. A. Cooper

333 Cytochrome Components of Plant Microsomes
P. R. Rich and D. S. Bendall

343 The Energy-Coupling Controlled Efflux of 2-Keto-3-deoxy-D-gluconate in *Escherichia coli* K 12
A. E. Lagarde and F. R. Stoeber

355 Hydroxylation of *p*-Coumaric Acid by Illuminated Chloroplasts. The Role of Superoxide
B. Halliwell

361 Solid-State Protein Kinase. A Tool for Post-Synthetically Modifying and Radioactively Labeling Proteins *in vitro*
V. Kinzel, A. Alonso, and D. Kübler

369 Studies on the Specificity of Action of Bacteriophage T4 Lysozyme
D. Mirelman, G. Kleppe, and H. B. Jensen

375 Determination of Protein-Ligand Binding Constants at Equilibrium in Biological Samples
J.-P. Blondeau and P. Robel

385 Identification of Chloride-Binding Sites in Hemoglobin by Nuclear-Magnetic-Resonance Quadrupole-Relaxation Studies of Hemoglobin Digests
E. Chiancone, J. E. Norne, S. Forsén, J. Bonaventura, M. Brunori, E. Antonini, and J. Wyman

391 Changes in Guinea-Pig Dermal Collagen during Development
C. A. Shuttleworth and L. Forrest

397 Transport of Amino Acids in Membrane Vesicles of *Rhodopseudomonas spheroides* Energized by Respiratory and Cyclic Electron Flow
K. J. Hellingwerf, P. A. M. Michels, J. W. Dorpema, and W. N. Konings

407 Calcitonin Biosynthesis: Evidence for a Precursor
F. Moya, A. Nieto, and J. L. R-Candela

415 The 3′-Amido and 5′-Amido Analogues of Adenosine 3′:5′-Monophosphate; Interaction with cAMP-Specific Proteins
N. Panitz, E. Rieke, M. Morr, K. G. Wagner, G. Roesler, and B. Jastorff

423 Radioactive Labelling and Characterization of the Products of Activated Mouse Lymphocytes
C. Sorg

431 Altered α Subunits in Phenylalanyl-tRNA Synthetases from *p*-Fluorophenylalanine-Resistant Strains of *Escherichia coli*
H. Hennecke and A. Böck

439 Tertiary Structure of $tRNA^{Phe}$ (Yeast): Kinetics and Electrostatic Repulsion
C. Urbanke, R. Römer, and G. Maass

445 The Internal-Alkaline pH Gradient, Sensitive to Uncoupler and ATPase Inhibitor, in Growing *Clostridium pasteurianum*
V. Riebeling, R. K. Thauer, and K. Jungermann

455 Heterogeneity of Enterotoxin-Like Protein Extracted from Spores of *Clostridium perfringens* Type A
W. R. Frieben and C. L. Duncan

465 D-Alanyl-D-Alanine Carboxypeptidase in the Bacterial Form and L-Form of *Proteus mirabilis*
H. H. Martin, C. Maskos, and R. Burger

475 Pigeon-Liver NAD Kinase. The Structural and Kinetic Basis of Regulation by NADPH
D. K. Apps

485 The Nomenclature of Peptide Hormones. Recommendations, 1974. IUPAC-IUB Commission on Biochemical Nomenclature (CBN)

487 Solubilization and Characterization of Phosphoprotein Phosphatase(s) from Bovine Corpus-Luteum Plasma Membranes
S. Azhar and K. M. J. Menon

497 A Kinetic Study of Mitochondrial Calcium Transport
K. C. Reed and F. L. Bygrave

505 Interconversion between Different States of Affinity for Acetylcholine of the Cholinergic Receptor Protein from *Torpedo marmorata*
H. Sugiyama and J.-P. Changeux

517 Equivalent and Non-equivalent Binding Sites for tRNA on Aminoacyl-tRNA Synthetases
G. Krauss, A. Pingoud, D. Boehme, D. Riesner, F. Peters, and G. Maass

531 The Relation of Conformation and Association of Insulin to Receptor Binding; X-Ray and Circular-Dichroism Studies on Bovine and Hystricomorph Insulins
S. P. Wood, T. L. Blundell, A. Wollmer, N. R. Lazarus, and R. W. J. Neville

543 Mode of Action of the Macrolide-Type Antibiotic, Chlorothricin. Effect of the Antibiotic on the Catalytic Activity and Some Structural Parameters of Pyruvate Carboxylases Purified from Rat and Chicken Liver
P. W. Schindler and M. C. Scrutton

555 Induction Potential for Glyoxylate Cycle Enzymes during the Cell Cycle of *Euglena gracilis*
J. Woodward and M. J. Merrett

561 Zum Mechanismus der Kondensationsreaktion der Fettsäurebiosynthese *(Mechanism for the Condensation Reaction of Fatty-Acid Biosynthesis)*
K.-I. Arnstadt, G. Schindlbeck und F. Lynen

573 Quaternary Structure of Polynucleotide Phosphorylase from *Escherichia coli*: Evidence of a Complex between Two Types of Polypeptide Chains
C. Portier

583 The Distribution of J Blood-Group Activity on Lipoprotein and Protein Fractions of Bovine Serum
A. Radaš and O. W. Thiele

593 Control of Hepatic Protein Synthesis. Differential Effects of ATP Levels on the Initiation and Elongation Steps
M. S. Ayuso-Parrilla and R. Parrilla

601 Inhibition by Carbon Monoxide of the Secondary-Amine Mono-oxygenase of *Pseudomonas aminovorans* and the Photochemical Action Spectrum for Its Reversal
D. F. Brook and P. J. Large

611 Effect of Substrate Structure on the Pre-Steady-State Kinetics of Oxidation by Liver Alcohol Dehydrogenase. A Correlation with the Taft σ^* Parameter
L. F. Blackwell and M. J. Hardman

617 Uptake of Taurocholic Acid into Isolated Rat-Liver Cells
L. R. Schwarz, R. Burr, M. Schwenk, E. Pfaff, and H. Greim

625 The Properties of Cytochrome *f* and P700 in Chloroplasts Suspended in Fluid Media at Sub-zero Temperatures
R. P. Cox
